Dear Mr. Wain:

I write to provide Northern Kentucky University's support to the "Win the War Against Violence" campaign. As an educational institution, we work to provide a safe environment for current and future students to learn. And we strive to provide a safe environment for our faculty and staff to work.

Working to eliminate youth violence is an important and noble effort. Our Commonwealth and our nation, will be stronger because of this work.

I applaud your efforts, and thank you for your work to eliminate violence.

Sincerely,

Geoffrey S. Mearns  
President
