This presentation was well put together in a way to reach teens now. I liked the presentation helped me understand you have to do what’s right no matter what! I learned that some things I thought were normal for teens is actually violence. I enjoyed learning that violence can cause a deeper meaning to people and ways to help those people. Very moving and eye opening information. Some of the information I have never heard before. Makes you realize severeness of the issue. I really thought this was very necessary for us to see because we’re very blind of our reality and what’s happening. It was great for us to learn what to do in these situations. A lot of the things covered were really good to cover, and to make others aware –suicide and mental illness are important to know about! This is incredibly necessary knowledge. Great Presentation!
